LATEST NEWS

The total stock of jerked beef in this market on 31st Dec. was 2,344,000 kilos, 1,981,000 kilos being from the River Plate. The current price for old is 320 to 360, and for new 340 to 420.

IMMIGRATION.

Although the arrivals of emigrants to these shores during the past year were not quite as large as in 1873, it must be acknowledged that the current has set in very strong, and will probably continue so, if the country is spared the baneful effects of war, revolution or political effervescence. The revolution of 1874, which was the embryonic formation of the lengthy financial and political crisis that followed, the jeopardized security of life and property in the Interior and on the frontier, the melancholy farce of 1880, and finally all the effects of these baneful causes, stopped the human current that began to flow into the country in 1873 with such unprecedented force. The prosperity of the last three years, which, we may say, has been general in this province and in Santa Fe, especially amongst the agricultural and working classes of the population, has been the main spring of the large immigration returns of 1883, and it is only rational to presuppose that the figures for 1884 will increase "pari passu" with the prosperity of the country.

It is a remarkable fact that in spite of the seventy-three thousand new arrivals of 1883 labour has been seldom, if ever, so dear as at present: Making full allowance for the emigration out of the country, there still remains a heavy balance, which in normal circumstances would have been deemed quite sufficient not so much to depress the labour market as to prevent any considerable rise in wages. The present high wages paid shew pretty clearly that; Two hundred thousand emigrants per annum would not meet the demands of the country. Many thousands of the emigrants, who arrived in 1883, were, no doubt, settled in farms in Santa Fe and in "chacras" of this province, but the bulk of this bone and sinew has been employed in the public works of the Republic.

Thousands upon thousands of workmen are engaged in this city on the City Improvement and Water Supply Works, and as bricklayers in the hundreds of new buildings which are springing up like mushrooms in all our streets. Many more are engaged in the extensions of the railways of this province, and in La Plata and Ensenada alone there is an army of workmen. The harvest now occupies a great many emigrants and the high wages which they enjoy will enable them this year to make a start for themselves.

It is needless to refer to the extensions of the national railways in the Interior, where the navvies outnumber the troops of the line; but the remarkable feature of the situation consists in the princely wages earned in spite of this great influx of emigrants. The banks of this city, before the sailing of an Italian or French steamer, are crowded with Italians taking exchange and forwarding small remittances of 10 and £20 to their relatives at home. This may account for the low rate of exchange at a stage of the year when it is generally much higher.

The plain facts of the case are that we need double the number of emigrants that are at present flocking from Italy; the country wants twenty thousand emigrants per month instead of the present monthly average of 6,000. The actual dearth of labour is the best proof of the growth of the country, and although the Argentine Republic may not be speeding ahead at the rate of Australia or the United States, we may all remain satisfied with the evident signs of an advance which has neutralized the dissolving tendencies of politicians and has baffled all the drawbacks of civil wars, disease, and crisis, which might have plunged any other country, with less vitality and fewer natural resources, into ruin and lasting discredit. On all sides one witnesses the healthy influence of the steady current of emigration to the Plate, and the more powerful this influence grows the better for the country; at present all must acknowledge that the current of emigration is not strong enough to meet the immediate, not to speak of the remote, requirements of the country.

If we take a broad view of the question and limit calculations simply to territorial extent, to the exclusion of the superior bounty of soil, it must be seen that there is room in the Argentine Republic for 170 million inhabitants as a minimum. But these general considerations are forgotten in the study of our immediate wants, and Argentines may look forward to a crisis of labour should any European war or political measure put a stop to the emigration from Italy to these shores—since Italians are the bulk of emigration to this country. Wages are rising instead of falling, and we believe that there is no country in the world where the labourer is paid from seventy to eighty patacones per month, with board, as happens at present in the Santa Fè colonies. Five thousand emigrants might land to-morrow at the mole-head—in 24 hours they would find employment in and around this city alone. Four hundred thousand people emigrated from the United Kingdom in 1883—how many thousands of these might have come to the Plate, and worked their independent livelihood in a few months. If the emigration from Northern Europe will not flow to these regions, and if Italians do not arrive in larger numbers, the Argentine Government, before 1886, will be in the necessity of appealing to the Chinese to complete our railways and public works.

THE FLORES PARISH MAGAZINE

BUSINESS NOTICE.

The *Flores Parish Magazine* is established with the idea of providing a means of communication between the Members of the increasing Congregation who worship at the Episcopal Chapel. The main portion of the subject matter is prepared and printed in England, presenting short essays and stories written by some of the most eminent divines of the Church of England. The local information will be supplied on the cover and intermediate leaves; and it is hoped that any who can contribute subjects of general interest will send them to the Chaplain, 45 Calle Rivadavia, before the 20th of each month; these contributions may take the shape either of letters or of essays. Suggestions for the improvement of the *Magazine* will be received with great pleasure.

A principal feature of the *Magazine* will be the Sunday School Corner. This will contain questions on Biblical subjects, answers to which are invited from all young folks indiscriminately. These answers must be sent to the Chaplain by the 20th of the month, together with the age of the sender, and will (if correct) be published in the next number. Every six months there will be a list of six prizes given to those who have sent the greatest number of correct answers: viz. three to children under twelve and three to children over twelve. If children do not like their own names published, they may take a *nom de plume*; but their real name must be sent to the Chaplain.

The last page will contain a Calendar of the Church Services, together with a list of the Hymns to be sung.

The cost of the *Magazine* yearly will be $ 3 m/n., payable in advance; this includes deliverance at the house. Intending Subscribers in town will kindly send word to Dewey & Co., 241 Piedad; in Flores, to the Chaplain, 45 Calle Rivadavia.

ADDRESS.

Dear Friends and Parishioners,

It has been my custom yearly to greet you on New Year's Day with a short address. This year our new *Magazine* provides me with the best means of doing so.

You must feel haw sincere are my wishes for a Happy, nay, a very Happy New Year to you all! These are not idle words prompted by the fashion of the season; they proceed from the heart, and speak to the heart. Since last year, it seems as if a closer bond of union were uniting us. Your attention and sympathy during my severe illness, your willingness to put up with irregular and fitful Services during my enforced absence in England, your hearty reception of us on our return; all prove that there does exist a stronger unity between us.

Well, then, pleading this sympathetic bond, I wish to urge upon you the fulfilment of a great duty: be more regular in your attendance at Services. If you prize (as I feel you do) the privilege of having regular Services so near at hand, then show your appreciation by your steady and regular appearance in Church. You, who remain at home on the slightest excuse, little know how you tie the hands and weaken the voice of the preacher, whose heart must necessarily fail within him at the sight of a scanty Congregation. Then let me urge you as a duty before God to be more regular than heretofore; let him who has been in the habit of coming only every other Sunday; let him who has come only in the morning, make up his mind to come both morning and evening. Is it much to ask for the public worship of your God, three hours per week? And with this, dear friends, will come a special blessing from on high; and He who sees the thoughts and desires of our hearts, will fill us during this New Year with all the graces of His Divine Spirit.

Your faithful Pastor,

J. H. Gybbon-Spilsbury.

FLORES COLLEGIATE SCHOOL.

The Examinations of this School began on December 12th and lasted a whole week. The papers were, on the whole, well answered; but they disclosed several weak points, mainly in Arithmectic and History. The Algebra and the French were very good. As a result of these examinations, the Annual Entertainment and Distribution of Prizes was held on Friday evening the 21st ult. The School room being too small to accomodate the numerous families who had expressed a desire to be present, the Boys were able to obtain the loan of the large barraca adjoining the Chapel, kindly lent by Señor Montarcè. Volunteers came to help the Boys, and succeded in tastefully decorating the big building. A stage, covered with flags of all nations, was erected at one extremity; the iron pillars were ornamented with garlands, and the bare walls partly hidden in green festoons. The neighbouring families supplied flowers in abundance; and the whole effect was very good. An audience of more than 200 persons assembled on the invitation of the Boys, whose acting called forth continued applause. Four scenes were represented—three in English and one in French. Where all tried their best, it would be invidious to particurize. These scenes were diverseified by vocal and instrumental music. Mrs. Hunt's magnificent playing was deservedly applauded. Mrs. Rugeroni's song "My Queen" was so feelingly rendered that it gained an *encore*; and although suffering from a severe cold, she kindly sung "For Ever and for Ever." Mrs. Gybbon-Spilsbury sang "Esmeralda." "If Duoghty Deeds" was so well given by Mr. A. Boyd that he was recalled and sang later on 'Sailing.' The Prizes were distributed to the successful winners by Mrs. Carroll and Mrs. Leslie. Altogether a very enjoyable evening was spent; and the Boys especially departed with beaming faces, eager to enjoy their holidays. It may be mentioned that the preparation and learning of the pieces acted was all extra work, done out of school hours.

The School will re-open on Tuesday morning, January 15th, at 8.45.

LONDON LETTER.

(*From our own Correspondent*).

SUNDRIES.

December 7th.

So Mr. Burt, M.P., has followed the fashion and been to "Amerikey." He has been a whole ten weeks in the States, and, as a working man and miner himself, he was interested in the industrial condition of the people, and particularly the miners. What he has to say is not much, but we gather from his plain and unadorned statements that the average wages of the miners in the districts he visited—Illinois, Ohio, Indiana and Pensylvania—was from two dollars to two and a-half dollars per day. This was about the wages of workmen connected with the iron trade, whilst ordinary labourers were paid from one and a-quarter to a dollar and a-half a-day. Nowhere did he find the miners work ten and a-half or eleven hours a-day. Long hours are the rule in America, and, in some cases, there was no limit to the day's work, the men went into the hanks and came out when they liked; but while the hours are unreasonably long, the miners of America, he says, seldom work as hard as the same class of workmen do here. The American miner lives well. His table, as a rule, is better supplied than that of his brother in England. Beef and mutton are somewhat cheaper than with us, but their quality is inferior. Other staple articles of diet are about the same as in this country. Articles of dress, especially woolen goods, are much dearer than in England: house-rent, too, is very high. On the whole, taking food, clothing and house-rent together, living is, no doubt, more costly than in the United Kingdom. Trade unions are not strong in the mining districts, or, indeed, amongst any class of workmen. Mr. Burt regrets that the unions that do exist should be secret societies, and the tendencies of the workmen is to rush into strife whenever differences occur between them and their employers. He says that the American workmen ascribe their want of organization to the diversity of race and nationality amongst the citizens of the Republic.

It must be confessed, that from Mr. Burt's account it is not easy to decide whether the American workman is worse off or better off than his brethren in England. In Republics or Monarchies, or where land is in the hands of the few or many, house-rent seems to be an item as well as beef or mutton. If clothes are dear in America, that results from bad legislation, and probably dear meat and high rents could be traced to the same cause in both countries. As for the old population theory, it may be epigrammatically restated. Where there are many of us, each should get a share of good things. Where there are few of us, none will get away. A sparse population means savagery. Population produces wealth, and is wealth. The failure in its division is, as Henry George says, not the work of the Almighty, but of bad legislation, and if, as Professor Huxley says, in criticising an inmature essay on "Instinct," just published, amongst the posthumous papers of Darwin—"this is a very cruel world"—in which one creature preys on another, the distance between the bacilli and humanity is, in some sort, though not strictly, the measure of possibilities in comparing the political development or moral evolutions of the future with the crude habits and institutions of our ancestors.

That breach of promise case is not quite settled yet, but the application for a new trial has been refused, and the original verdict has been confirmed. Mr. Justice Day and Mr. Justice Smith seemed quite pleased to think that, "although the damages, £2,350, were high," it was quite right, under the circumstances, that Mr. Joy should pay them, but execution was stayed with a view to an appeal, on condition of the defendant finding security for damages and costs. Joy can wish himself—somewhere else.

Besides the great fires in Constantinople and Brussels, and the frosts in London, which has succeeded the celebrated after-glows and sunsets, the other burning topic is still the Australasian Federation and the coming meeting of delegates at Sidney, at which the new Munroe doctrine is to be propounded, of "Hands off in the Pacific." Lord Derby is getting civil and has asked tke Boers to dinner, and begins to find that although Mr. Childers may style him that "prudent and far-seeing Minister," he is, after all, only a political Martin Tupper, dealing in sententious common places, and that high-toned pomposity will not do in these days either with Boer, Bull, or Kangaroo. I say he has grown civil, and if Australasia wants to throw off her leading-strings, our Colonial Minister will not say nay. But, as even poor Lord Hartington discovered, the Government is so exceedingly sensil tive in regard to France. it will require all Lord Granville's address to explain to our neighbours that the aristocracy of Botany Bay will, on no account, tolerate the presence of French convicts between the wind and their nobility. The Australians are right; and the French will understand that, what is to them a minor measure of present convenience, is of vast importance to the future empire in the south. It is, however, a ludicrous satire on political humanity to see British Conservative papers advocating in our own colonies the doctrines they have never ceased to abuse in the Americans. The doctrine has a founcation of justice in America as in Australia, but everything depends upon the prudence with which it is maintained. The United States have, so far, set us a very good example.

Your country is still in the ascendant in London. I receive prospectuses of Santiago sugar companies and all sorts of things, including a proof of a prospectus of rather a big thing; at all events, with big names. But proofs are sacred, although every one may know their contents.

The Directors of the Central Argentine Land Company have declared an interim dividend of 1s. 3d. per share, or 6¼ per cent., on account of the current year.

The Directors of the San Francisco and Oregon Bank, whose secretary absconded, á la Warden, with £50,000 securities to the bad, have followed the good example of the London and River Plate Bank and agree to pay the depositors.

Sr. Carve, the new Plenipotentiary from Uruguay, has arrived in Paris, and is expected shortly in London, where, for the present, he will take up his quarters at the Hotel Continental.

The Cordillera's Mails.

London, Dec. 8th.

The news from the Soudan is still indefinite. Our Correspondent telegraphs from Aden that the rebels fire into Suakim every night, and that on Sunday six hundred black troops sallied out from that town to attack them, but without apparent result. The Arabs still aver that Consul Moncrieff is alive.

The French Minister of Marine has received information from Hong-Kong to the effect that Admiral Courbet's preparations for operations in Tonquin are in a very advanced condition. The Tonquin Vote of Credit was discussed in the French Chamber yesterday, but no decision was come to.

The great demonstration which was to be made yesterday in Paris on the part of the "victims of capital" proved to be a decided failure. Extensive precautions were taken against any possible outbreak, but there was no disturbance of the peace.

Lord Ripon informed the Indian Legislative Council yesterday that the Secretary of State had approved the Ilbert Bill as it had been modified—namely, by limiting the proposed jurisdiction to "ex-officio" district Magistrates and Sessions Judges. The High Courts would be empowered to transfer cases from a native to a European Magistrate where an impartial trial appeared to be unlikely. The Home Government had decided that the Viceregal Council was fully competent to deal with the Bill, and had refused to stay proceedings until the question had been discussed in Parliament.

Speaking at Galashiels yesterday, Mr. G. O. Trevelyan, M.P., referred to the severe criticism which Lord Spencer and himself had had to endure. Their task had been an arduous one; but they had endeavoured sealously to perform it, and he looked forward hopefully to the future of Ireland.

Mr. Mundella distributed the prizes to the successful students at St. Katherine's College, Tottenham, yesterday afternoon, and in a speech of some length discussed the question of school teaching, and the status and prospects of school teachers.

An enthusiastic demonstration in favour of Lord Rossmore was made yesterday in Monaghan, on the occasion of his first visit to the town after being deprived of the commission of the peace. Two meeting were held, and resolutions were adopted protesting against the arbitrary and uncalled-for action of the Irish Executive in removing him from the magistracy, and declaring that the Government are unworthy of the confidence of loyal Irishmen.

The Royal Society yesterday resolved to promote the collection of a fund for creating a perpetual pension in connection with the Printers' Pension Society, as a memorial of the late Mr. W. Spottiswoode. The Royal Society also purpose to have a portait or bust of their late President.

At the meeting of the Metropolitan Board of Works yesterday a letter was read from the Home Secretary with reference to an unhealthy area in the neighbourhood of Salisbury-place, Bermondsey. During five years this "plague spot" had not beeu dealt with sufficiently by any authority, and the Home Secretary trusted that future applications would be dealt with more expeditiously.

An actress known as Grace Hamilton, from London, and engaged as a fairy at the forthcoming pantomine at Glasgow, was yesterday fatally shot by a young gentleman of means, named Macpherson, at her lodgings in that city. The murderer committed suicide soon afterwards.

At the Sandown Park Meeting Mr W. Lewison won the Maiden Selling Hurdle-race with Woodcock, Mr. W. Hilliard the Stewards' Steeple-chase with Adare, Mr. C. J. Blake the Grand Annual Hurdle-race with Sibyl, Mr. G. Lambton the Surrey Selling Hunters' Flat-race with Julius, Mr. J. Gubbins the Tyro Steeple-chase Plate with Chancery, and Mr. F. W. Taylor the Ladies' Plate with Valjean.

In the Queen's Bench Division, yesterday, Mr. B. Bradlaugh brought an action against Major Gosset, Serjeant-at-Arms. The plaintiff alleged that he was elected for Northampton; that the House had passed a Resolution directing the Serjeant-at-Arms to exclude him from the House till he should engage not further to disturb its proceedings; that he replied that he should apply for an injuction to restrain the Serjeant-at-Arms from committing a breach of the peace, and Mr. Bradlaugh, having been forcibly expelled from the House, now asked for an injunction to restrain the Defendant. The matter having been elaborately argued, Lord Coleridge said the Court would have no difficulty in arriving at the judgment which they would pronounce, but that they would put their reasons in writing.

The Germans Woolf and Bondurand were brought up on remand, yesterday, at Bow-street, charged with the illegal possession of explosives. The day was occupied with the cross-examination of the informer, Ferrall, and the evidence of Police-inspector Marshall, who received information from Woolf in October and November that five men had been sent over to this country to blow up foreign tyrants residing here. The Prisoners were again remanded.

Mr. Colledge, the English Vice Consul at Kertch, on the Sea of Asov, appeared at Bow-street Police-court yesterday to prosecute the proprietor of the *Globe* for libel. The libel consisted in the publication of a telegram, purporting to have been received by the Central News from Vienna, stating that Mr. Colledge had been at the head of an Association of Pirates, which had made large sums of money by wrecking vessels and pillaging the cargo. The Prosecutor denied that there was any truth in this charge; but in cross-examination he admitted that he had left his post without permission, that he left Odessa by a cargo boat without having paid his hotel bill, and that he did not land at Constantinople, but changed into a steamer for Malta. He knew that he was suspected of complicity in the frauds, and the Foreign Office has recommended him to go back him. He had not done so because he had brought this action against to Kertch and meet the charges against the *Globe*. The case was adjourned to enable the Defendant to procure evidence from Russia in justification of the libel.

A further advance took place in the price of loanable capital yesterday. The bill brokers put their allowances on deposit up to 2 and 2¼, and the discount rate was 2½. Stocks were irregular in price, but most of them firm, except Egyptian. The Settlement begins on Tuesday, and its approach caused operators for the fall to repurchase. North-Eastern Stock and Mexican Railway Stock improved most. Consols lost ⅛ and were quoted at 100⅛ ⅜. The Bank received £7000 in gold.

"I don't take much stock in proverbs," said Brown to Jones. "For instance, look at the oft-quoted one, 'A friend in need is one indeed.' Now, most of my experience with friends in need has been that they wanted to borrow. Give me the friend that is not in need."

The Maskelyne's Mails.

It is now stated on authority that the report of Mr Tennyson's acceptance of a peerage is unauthorised. The fact, I believe, is that Mr Tennyson has been offered a peerage, and that he has not consented, and probably will not consent, to take it. It was natural that Mr. Gladstone should desire to pay the greatest compliment in his power to the first of our living poets. A peerage is the highest social honour which the Crown can confer. But there are men on whom the greatest rank or title can bestow no dignity. Mr Tennyson is one of these. The poet would always be unspeakably greater than the peer, and probably most men would feel that in accepting a title, Mr Tennyson was derogating from the noble simplicity of his name and career. Apart from reasons of sentiment, there are practical objections. A peerage is a burden which requires wealth to sustain it, and Mr Tennyson may well hesitate before placing his family under such a responsibility.

So fierce a light is beating upon the Poet Laureate that no apology is needed for chronicling the following anecdote, which comes on good authority. At the famous luncheon party on Sir Donald Currie's yacht in the harbour of Copenhagen, Mr Tennyson, in conversation with the Empress of Russia and the Princess of Wales, is said to have asked by what title he ought rightly to address those ladiies. "I do not know," he said, "what I ought to call you." "Oh,' said the Princess, "there is no difficulty; Minnie and Alec, to be sure." It was a good answer, and surely a very pretty one. It will be remembered that the Danish Princess, on her marriage with the Cesarewitch, changed all her names, and, abandoning the name of Dagmar, took that of Marie Fedorovna.

All the jurors in O'Donnell's case, with two exceptions, were Englishmen. One was a Scotchman and one an Irishman. There was no attempt made to depart from the usual course, and no steps whatever were taken to exclude Irish citizens if they happened to be called. As it turned out, several jurors were absent, and they were merely passed over without remark.

General Pryor's brief was marked 15,000 dollars; yet, considering the pressure of legal business on the firm to which he belongs—one of the most sought after in the United States—he will make no present pecuniary profit out of the transaction.

Millionaires may well boast that "they are not in the roll of common men." Fancy a private carriage lighted with electricity inside and out. It seems the beau ideal of luxury to line a city with electric radiators so that one may "bowl along" in broad daylight, but this is only a possibility still in the womb of the future. Mr Alfred de Rothschild has, however, hit on the expedient of lighting his brougham with electricity from a fixed accumulator. What a meteor-like appearance such a vehicle must present as it dashes and flashes along the Tring-road to his Halton demesne! In the old days a similar apparition would have brought utter ruin on Claud Duval, Tom King, and the rest of the fraternity. They would have been seen a mile off, and their reception would have been prepared. Even now the simple Hereford villagers must wonder what it all means, and think that Will-'o the-wisp has gone mad and put on his Sunday clothes.

Letters in certain Suffolk papers take exception to the information I gave a week or two since as to the early life and history of Mdlle. Ramee, whose literary name is "Ouida." The only fact which the correspondents who write from Bury St. Edmunds really contradict is that the mother of the celebrated novelist ever kept a "little haberdasher's shop" in that town, so possibly my informant was wrong about the locality if ever the shop was kept at all, and I am sorry that this fact should seem to be so objectionable to those who claim "Ouida" and her mother as their townswomen. A little business such as I believed Madame Ramee to have conducted in the quiet town of Bury, while her daughter was very young, is, I think, a very suitable, feminine, and creditable means of increasing a straitened income. The lady who corroborated the assertion of my Florentine friend, who had heard something of "Ouida's" early history from herself, simply said that she recollected her as a little girl when she was herself visiting at Bury, and she mentioned particularly that she had seen a sort of tournament made by Louise Ramee ("Ouida"), in which the cardboard figures, men and horses, &c., were all drawn, coloured, cut out, and arranged by the clever child for her own amusement. It is quite certain that Madame Ramee lived with her mother, Mrs Sutton, at Bury St. Edmunds for many years when 'Ouida' was very young, her father, M. Ramee, being usually absent and only occasionally seen. I daresay the shop never existed at Bury, though the united means were very small. My friend was, of course, pleased to find that the clever girl she remembered was really the talented novelist, who showed signs of a vivid imagination in very early life.

WHAT LIFE INSURANCE AGENTS HAVE TO ENDURE.

"La vie sans caisse, et caisse que la vie; I caiss I will give you my 'Avis' on the subject."

Dear Editor,

Great men *do* say smart things sometimes; we will take Dr. Fort, for instance, who in his famous treatise on the comparative anatomy of the fleas says: "You never know how a thing will turn out." I suppose he must have overheard it from his charwoman who was frying a pan-cake at the time; then Julius Cæsar, that individual with that determination which was entirely his own, that agility of the eye glance, that velocity of footstep characteristic of his speech, addressed his soldiers once in the following manner:—"My dear friends! when the sun is brightly shining and the canopy of Heaven perfectly cloudless, and the sky of the most perfect azure, then we may safely conclude it is a fine morning." After this speech, (grains of gold I should say) he had to be carried away by five men and a donkey, he had fallen into a pretty biggish fit of intelligence, his intellectual capacities by this time were entirely exhausted, "the beggar was done for," as they say in Lancashire; then again hear Sir Charles Napier who was of opinion that when a man of mature age and regular habits with yellow whiskers came into contact with four locomotive engines, after that swallow one hundred weight of arsenic, then called a Liverpool rough a l..r, laid down on the bed of a river for six weeks and was picked up in four places, that that rate-payer could be considered unhealthy; but all this cannot be compared not in the least with my grievances, and therefore to the point!

Is it a fair question to ask you. Have you ever been a Life Insurance Agent? If not should you like to become one even for a day?

I hear you say distinctly No to both questions and shake hands with you, wish you a Happy New Year, and pronounce you to be a man of the soundest mind. If I ever become a member of Senate or Parliament, my first duty shall be to introduce a law by which any person who commits suicide, murder or theft, shall be obliged to become a Life Insurance Agent for 10 years, and do at the least three lives per diem; the effect would be marvellous, and crime reduced almost to nothing.

I will now relate to you and your readers what I experienced during the few days I acted as such.

Arriving here, without cash or friends, in fact not knowing what to do, I had been advised to become an Agent for a Life Insurance Company, being told that there were two Companies here, "Equitable" and "New York." The "Equitable" I left at once on one side; it struck me that such a name was not fit for a Life Insurance Company, and therefore took to the "New York." After a great many preliminaries, instructions etc, I began to work and the very first man I spoke to was willing to insure his life in my company for 10,000 dollars. Now you or anybody else will at once exclaim "well done you" but pray listen to the rest of my story.

In going to the office where the party had to be examined by our most scrupulous doctor he was there and then plainly told "that he was refused."

One might think that the would-be insurer was ill or suffering from liver complaint etc. etc; no such things, the man was in perfect health, father and mother living, six brothers and eight sisters, all doing well. None of the family knew what a doctor was, they had never swallowed a pill, neither cod liver oil nor any other medicine. The reason he was refused was simply this.

Whilst he was being examined by the Company's doctor, he lit his cigar with a slip of a Rio newspaper which promised to write an article *next day* on yellow fever.

There was a whole day gone and no business done. However, knowing that patience is a great virtue I set out the second day and began my operations in the Calle Alsina (I thought it best to commence alphabetically) knocked at the first house and asked to be permitted to see the master of the house. A lady of middle age then presented herself and bade me to enter the 'sala,' where the following dialogue took place.

I came to see whether your husband wants to insure his life?

I could not tell you.

I should like to insure him in the "New York," one of the oldest and richest Companies represented in South America and perfectly mutual. We have done a lot of business in Brazil.

I scarcely think my husband will insure his life this time.

Oh! yes he will, any man is bound to do so, it is impossible for us to know the day when we will die, and then by paying such a trifle a man can leave his family independent.

Might I leave some of our tables and rules?

Yes, why not.

Could you tell me whether your husband would like to insure his life?

I could not indeed.

I suppose of late he has not complained of illness?

Not of late.

Now then Madame he is just the man we want, he must be persuaded to insure at once. Our doctor will take him at a glance.

Does he travel much either by rail or sea?

No, not at present.

Is he given to drinking spirits?

Never took a drop for the last ten years.

I only wish your husband was here now, I'd take his life I bet.

Well, I don't think so.

At all events I will call this evening, surely I don't see why I could not take his life?

But, I do, said the dear creature.

And that is?

His life has been taken 10 years ago, when he was assassinated.

"Tableau"!

Now my dear Editor, need I tell you anything more, but simply ask you what have we smelling creatures to do under those trying circumstances. Do give a poor fellow a lift.

Yours truly

B.

EDITOR'S TABLE.

"It's an ill wind that blows nobody good." The wind that blew a case of yellow fever into the Mount the other day was expected to have blown away quarantine here on vessels from the neighbouring republic, but up to yesterday evening it had not done so. It must, however, soon.

The *Prensa* made some rather startling disclosures yesterday about the state of things at La Plata, the new capital of this Province. It appears that the Engineers have made sundry "faux pas" in the way of levels, &c., which it will cost a whole pile of money to rectify. This is a pity, as, of late, the public have begun to think that La Plata may prove a trump card after all. One thing seems certain—that the Ensenada Port will be crammed with foreign shipping before Buenos Aires gets a port of its own.

We warmly welcome to the Editorial 'Bus our new colleague *The Flores Magazine* and its talented editor, the Rev. G. Spilsbury. It is most excellent reading for the young, and entertaining for all ages. We give some extracts in another column.

The Cordillera's mails came to hand yesterday. The news is not exciting enough to induce apoplexy, still it is of mild interest. The red sunsets in England have been succeeded by a rattling, old-fashioned frost, to the delight of skaters and foxes, and proportionate disgust of fox-hunters. The Soudan affair—like a Certain Person—is not so black as it was painted. We shall not be surprised if means be found to "remove" the False Prophet to Paradise, where he will be the wrong man in the right place.

Our esteemed friend Mr. Edgar C. Courtaux, Director of the Colegio del Plata, will lead to the altar of Hymen to-morrow, the lovely and accompished Miss Ercilia Pellegrini. The "padrinos" will be Mrs. Pellegrini, mother of the bride, and Mr. Mariano Marenco. We offer our congratulations on the happy occasion.

Dean Dillon, we are most happy to say, progresses daily, and is on the high road to complete recovery.

Mr. Nash's Blood Stock is announced for sale. See our advertising columns. Breeders seldom get such a chance of securing prime things, and should not neglect it, or they may live to regret it.

The Masquerade Balls begin to-night at the Opera House, Politeama and other public places of amusement. Last year it was understood that the Municipality intended this year to clip the wings, or rather the legs, of King Can-can, and only allow his autics during Carnival; but this very commendable resolution was, it appears, written on sand, like too many other good resolves in these regions.

We have Mauritius papers for the esteemed subscriber who has a reversionary interest in all we receive from the land of mules, maize, molasses and empty casks.

The Lord Mayor has received a most important letter from the Argentine Minister in London, Dr. Garcia, on the subject of the rage for wooden pavement in London and all the great cities of Europe. The evidence in favour of wood over every other kind of pavement is so overwhelming, that our Municipality must be mad to allow another stone to be laid down as pavement in this city. Health, comfort, economy, durability and cleanliness, all are in favour of wood.

Mr. Latham's dramatic company will arrive here from Rosario to-morrow or next day, and will debut on Wednesday night next, in the National Theatre, in the "Cricket on the Hearth," a beautiful play and a prime favourite in England.

The Civil Marriage Bill has passed the Chilian Congress by an overwhelming majority.

The numerous improvements in Kidd's Guia this month are highly appreciated by the public and have led to a large increase in its sale. Several parties have asked us to suggest a still further improvement, viz., that the tables of fares should be in juxtaposition with the time-tables of each line. We call Messrs. Kidd's attention to this.

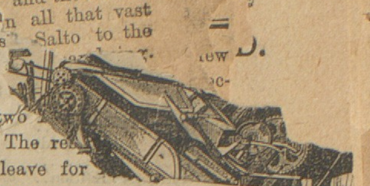

"Coming events cast their shadows before." Frail and flighty Paris is now going mad over the comedy "Les Rois en Exile," at the Vaudeville Theatre. The play is a bitter attack on Monarchy, and every night there is a terrific row between the supporters of that institution and the Republicans—the first hissing and hooting, the others cheering with all their might. The papers say that the Monarchists are in the majority—a very significant fact in the present state of France.

The *Diario* published a very lively article on the Press of Buenos Ayres yesterday, and agrees with us in thinking that most of its members are thoroughly played out, owing to the never-ending circle of politics and polemics in which they live, write and have their being, the result being that their ponderous sheets are not worth reading. Right you are, colleague. The public says the same thing.

An eveniug colleague declares that the attempt to start bull-fighting in this city, at the Once de Setiembre, is a positive fact, and that there are over 1,000 "socios" engaged in the matter. We hope the police and the Municipality will likewise prove themselves positive and stubborn facts on the occasion.

The Education Council at Rojas have shut up all the schools in the partido until the Government of the province choses to stump up the arrears of stipend due to the unfortunate teachers. It has long been an article of faith with Governments and the public at large that teachers and tailors can live on air, and some of them really seem to do it, especially the teachers.

The [illegible] for Dec[illegible] They sh[illegible] on the 1s[illegible] 3 died, [illegible] 1st inst. The two [illegible] fused. The re[illegible] shortly leave for the business.

The squeeze for small change is more severe every day. Paper dollars and cents are at a premium. The Provincial Bank won't give any small change, and we hear there is a slight hitch in the Baltore notes by the National Bank. The only way to solve the difficulty is to buy everything on "tick" and pay at the end of the month.

Cholera Morbus has appeared in Pernambuco, a place from which many articles of consumption are shipped to the Plate. "Cuidado!"

The Administrador de Limpieza, Mr. Tobal, gave a grand dinner on New Year's Day to his subordinates. His guests were more numerous than select, most of them being the city "basureros," an unsavoury but industrious body of men. The 'menu' was thoroughly National—'carne con cuero.' Everything went on smoothly while the guests were getting outside the beef; but when the bottles went round once or twice, we deeply regret to say, that the result was a most 'descomunal' free fight, in which black eyes, broken noses, cracked skulls and other injuries were more abundant than even the 'vino' that occasioned them. After a deal of trouble Mr. Tobal and some other gentlemen succeeded in restoring order and the guests went slowly homeward sadder and sorer men.

CRICKET.

UNDER THIRTY *v.* OVER THIRTY.

The above match was played on Tuesday last and proved a most interesting and exciting contest. Favoured with lovely weather, the "youngsters" went in and, notwithstanding the hopes of their eager partisans, were very quickly dismissed for 81 runs, on which success the "veterans" congratulated themselves to no small tune. They did not find it an easy matter to make the required runs, as, aided by a little luck, Over Thirty lost 9 wickets for 79 runs, being 2 runs less than Under Thirty's score. Then it was that the excitement, which had been gradually increasing as each wicket fell, reigned supreme, and every ball was closely watched by all on the field. But, alas! human efforts will fail at times, and the winning run was made very soon after.

The "veterans" were extremely triumphant, as previous to the match some of the "youngsters" were heard to observe, that to-day they were going to teach their grandmothers how to—play cricket. However, they consoled themselves by calling to remembrance the well-known adage, "Age before honesty."

Under Thirty went in again for their second innings and got on famously, losing on two wickets for 79 runs, of which Mr. McAdam made 43 runs and Mr. Boyd 24 not out.

Messrs. Miller and Calvo bowled very well for their respective sides, while Messrs. Clark, Burton and Roberts' batting was most useful at the critical point of their innings.

Cedulas A	102
Cedulas E	88⅝
Cedulas F	86½
National Bank Shares....	128½

Speculation in Cedulas is dying fast; since the beginning of the month stagnation has been rapidly creeping into the market and National Bank Shares have monopolized all the activity of operators at the ring. The Cedula bulls are disappointed owing to the desertion of the former powerful help that tided over their speculation in the squeeze and emergencies of settlement days. Operations have been generally sinking and to-day's operations did not amount to $150,000. About 100,000 Series E were sold for the end of the month at 88½; the market closed with buyers at this rate. Operations for cash embraced 23,100 Series E at 88½-⅝, 8,600 Series A at 102, and 9,000 Series F at 86½. There appears to be some firmness in the market for Series E at 88½, but the stock is flat and the situation is very dull.

There was a sudden turn in the share market this morning, and yesterday's weakness looked very much like a 'ruse' in presence of the exceedingly firm tone of the market today. Operations continue very active; 4,500 shares were sold for the end of the month; the market opened at 129, dropped to 128⅞, when the tendency became firm and rates went up steadily to 129½, closing at 129½, buyers. Forty shares changed hands for cash at 128½, and 200 shares were sold for the end of next month at 130½ and 131; close on 5,000 shares were sold during official hours.

Immediately after the close of official hours a ring was formed round a leading broker who offered to sell Shares at 129½; one party offered to take up 1,000 at this rate, but nothing was done. Buyers were numerous at 129¼ for the end of the month.

The exchange market continues firm, but there is little doing; some operations reported done to-day at 47½. Rates in francs continue firm also. The money market continues pretty easy; first-rate bills are quoted at 7 per cent.

We have received two numbers of the *Revue du Monde Latin*, published in Paris; the first number contains a favourable chapter on the Argentine Republic and on Mr. Latzina's map.

The quarantine of three days on vessels from Uruguayan ports will be removed next week in view of the measures adopted by the Montevideo Board of Health. If the members of the Montevideo Board had shewn more sense, and had the Board of this city been more discreet this arrangement would have been made in the beginning of last month.

The small notes under one national dollar are being printed at a very slow rate, and several days must elapse before the public is provided with a fair amount. Small change is at a premium and the banks are being drained of silver and copper coin.

The two small steamers, ordered by the National Government, for the navigation of the Rio Negro in the South will not be finished until the middle of this year and will probably be only employed on the Rio Negro towards the end of the year. The two small steamers at present on the river are unable to meet the wants of the region.

A friend, recently arrived from the Ocampo colony, states that the progress of that rising settlement is astonishing. The planting of sugar cane is becoming general, and the colonists will be enabled to compete advantageously with the production of the interior owing to cheaper freights by water. The Ocampo sugar factory is a massive building of 100 yards front by 40 deep; all the colonists have made money and are prosperous.

The earthworks of the Western Railway now extend to Mellizas; everything is ready for the permanent way which will soon be laid down. The rapidity with which these extensions of the Western Railway are pushed ahead is worthy of notice; the line from San Nicolas to Pergamino will be soon completed. When the steel rails reach Mellizas the extension works will be probably pushed on to Trenque-Lauquen, a place of great future, owing to its central position in the province.

The sales at the ring during official hours were:—
Cedulas—
For cash A 8,600 at 102
For cash E 23,100 at 88½-⅝
For Jan. 31st E 90,000 at 88½
For cash F 9,000 at 86½
Sales, 130,700.
National Bank Shares—

It is probable these lands will sell well, as the terms of sale are easy and the lands are known to be excellent.

Our colleague the *Prensa* alarmed us all to-day with the news that the nivel and measurement of the new capital of the Province of La Plata are both erroneous and defective. We are not aware of the full extent of the misfortune if this news prove true, but the matter certainly calls for explanation.

Respecting the Guamini lands we have capital advices. The place is going ahead rapidly; the owners of estancia lands who go out now for the first time to see their properties, find squatters on them, and this year there will be a score of new cattle estancias started out there.

Wr. W. White, the leading landbroker, reports great activity in his line of business, and repeats Mr. Rom's assertion that there are more buyers than sellers. Mr. White says he did more last month in land than in any previous month. He has now a fine lot of four square leagues in the Loreto for sale, splendid camp, which he offers a great bargain.

The news from the Interior is most favourable. The estimate of the wheat harvest of the Santa Fe colonies is as follows:—

Colony Jesus Maria	70,000 fanegas.
Candelaria, Clorinda, General Roca, Melincue..	150,000 ,,
Central Argentine Land Colonies and those in Depart. Rosario......	380,000 ,,
Colonies North Santa Fe	600,000 ,,
	1,200,000 fanegas.

It is estimated that there are at present 100,000 men employed in getting in the harvest, and during the year the following is a list of the agricultural machines imported at Rosario for the colonies:—

Machine reapers..........	199
Steam threshers	44
Ploughs	4465
Cultivators	122
Harrows	105
Various machines	2833

The Ensenada Port Works appear to be going ahead faster than the loan business in London, there are one thousand peones now at work at the excavations, this looks as if the Ensenada Works are pushing hard on the Boca Works; we want both ports.

Advices from Montevideo are most favorable, everything flourishes down there amazingly, and the hotels are crowded with visitors from Buenos Aires, enjoying the bathing at Pocitos. The sheep and cattle farms throughout the Banda Oriental are all most flourishing, and the increase in the flocks and 'rodeos' is on a par with that of Buenos Aires. The tramways of Montevideo are doing an enormous traffic, and on New Years Day the Union tram carried 20,000 passengers; all the Montevidean stocks are firm and rising, and there is a healthy tone about everything which must indeed be most satisfactory to the Montevidean Government.

The magnificent Mathey steamer La France is on the way out with 1200 emigrants on board, this is about the largest number of emigrants we ever reported for one steamer. Spanish emigration to the Plate, we learn from some Spanish merchants of this market, is so greatly on the increase, that it is thought it will soon rival the Italian, and the estimate we published of 20,000 Spanish immigrants for the year, we are told, is far under the mark, more likely they say it will prove double that number in 1884.

The Union Tramway Montevideo called for bids for 10,000 pats on a 7½ per cent mortgage. Bids to the amount of 45,000 pats were sent in; the Company accepted 10,000 at a premium of 1.21 per cent on the mortgage. This shows well for the Tramway Co.

The funeral services for the late Mr Grondona, merchant, estanciero and capitalist of this market and late Municipal, took place today at the San Miguel Church; it was very largely attended by the principal men of this market.

There was a howl of discontent on 'Change this afternoon at the Argentine Government continuing the quarantine on vessels from Montevideo, notwithstanding that the Montevidean Government has established quarantine on vessels from Brazil. The injury to trade and commerce by this most unnecessary quarantine in this port is so great that we suppose a meeting will be called on the Bolsa to protest against its continuance.

Estancieros and others may be interested in knowing that next month Mr Nash's great stud will be offered for sale by auction; see notice in another column. We have no doubt his splendid animals will sell well.

The manifest of the Galileo's cargo shows that the Nat. Bank shares have been shipped to Europe, and our information on this point was perfectly correct.

The Minister of Hacienda has named the following gentlemen to compose the Board of Public Credit for the new year:—M. Forrester, A. Arocena, L. Pereyra and S. Unzue, all good men and true

Telegrams from the San Carlos colony, Santa Fe, state that 62 steam threshers are at work up there; all the new colonies give a most splendid wheat yield, 22 to 25 fan. wheat per square, against 14 to 16 fanegas in the old colonies. The general crop of Santa Fe is estimated at 30 per cent increase over last year.

We hear of the starting of 4 new agricultural colonies in E. Rios, and "quien sabe" how many in Santa Fe.

Never do we remember the streets of this city so filled with new arrivals as at present, and the preponderance of young Italian and Spanish women is very remarkable. At the North side of the town, near the "Asilo de Imigrantes," there are days that the streets about there are blocked up with the new arrivals. Happy sign for the country.

Through the kindness of our esteemed friend Mr. E. Schröder, the active 'corralon' broker, we received the following statement about the actual Boca charges for vessels unloading at the Government Moles which, due to the recent visit of Minister Plaza, and thanks to the sound views of Mr. John Drysdale, of the Riachuelo Committee, have been reduced to half the price of last year, enabling sailing vessels and steamers of 18 feet draught to load and unload in less than 30 days:

Passengers from Montevideo were let out of quarantine to-day. They report much activity in the Mount and an easier wool market than on this side of the river; prices are considered more reasonable by exporters.

Mr. Baizan, the popular auctioneer, will sell on Sunday, at 4 p.m., two manzanas of splendid property, situated between Calles Tucuman and General Lavalle, Bermejo and Anchorena. The manzanas will be knocked down to the highest bidder, and in small lots.

We take the following from the London papers received by last mail:—
"Central Argentine Land Co., Limited.—The Directors have declared an interim dividend of 1s 3d per share, or 6¼ o/o, on account of the current year, payable on the 5th prox.
"Emigration.—During the month of November 19,837 persons left the U. Kingdom for places out of Europe, as against 19,868 in November last year. Of these there went to the U. Messrs. Bunge & Co. in their important produce circular, give the following under date Antwerp, December 8th, 1883:—
Wool—
During the first week following the close of our auctions, transactions consisting mostly of withdrawn wools, have been quite regular, and owners obtained an advance of 5 to 10 c. on the biddings made in public sale.
Since then, however, the market has become much quieter and buyers show very little disposition to operate. Prices of last auctions are barely maintained.
Of the new clip some small lots have in the meantime reached our market and are appreciated very differently, as regards the yield. A parcel of 35 bales, which we expect to yield about 32-33 o/o, has been sold at f 1.65, and 25 bales of about 31 o/o at f.1.55. Both being wools from the rivers show but little difference as compared with the preceding clip unless being somewhat more free of burr.
Public sales in Havre have been held on 28th and 29th ult., and although the stock in R. Plate wool was insignificant, say 2,712 bales, only 724 bales could be sold at a decline of 5-10 c on the previous series.
News from the London auctions, which opened on 20th ult., is satisfactory, although there is but a middling selection, attendance is good and prices of last auctions are firmly maintained.
These series have been fixed to close on 12th instant.

Hides—
We have had a tolerably quiet market ing the fortnight under review. T... merely buy to cover immediate wants, in of being able to operate on more favo... terms later on when our large stock, is to augment further, a few more arrivals of old and new hides being expected, will produced some effect on owners. W... this is a wise policy remains to be seen, after all the total available supply as ... distributed over the different markets ... no means exaggerated, and prices at their present range are moderate and hence liable to rise in answer to any stimulating news, such as for instance warlike political complications, or a demand from the United States would be.
Prices here in the meanwhile continue but barely maintained and only for such descriptions as are in moderate supply, as extra heavy salted ox and cow, full prices are still being allowed. We quote the current value of good Uruguay saladero ox winterhair at fs.66 for 20-25 kilos, fs.75 for 25-32 kos., and fs.79 for 32-40 kos.
No sales to arrive have taken place on this market, and in England the cargo per Solerte consisting of 10,500 Concordia ox, 67½ lb, had to be directed unsold to Liverpool no better offer than 6⅞d heavy and 5⅞d light having been obtainable.
Killings in South America on 3rd instant amounted to 40,000 against 13,000 head at the same time last year.

The saladero season in this province drags on very slowly, and it is very probable that the slaughter will be very small. The decaying fortunes of this saladero industry are remarkable in the midst of the great din of progress of the moment. Saladeros are becoming a relic of the past, and estancieros must soon devote their attention to the production of large and fat animals for export to Europe. I may add that had one or two of these Extinguishers been upon the roof of our neighbour, Mr Jenkins, the probability was that his building would have been saved, and we would thereby have been preserved from the extreme jeopardy we were in.

A las 2 p.m.

Remataremos a la mas alta postura y condiciones que se estipularan mas abajo, por orden terminante de su propietario, 65,000 hectareas de campos ubicados en la Seccion 2ª ... 3ª de os Territorios Nacionales.

Los numeros que se ofrecen en venta son el 3, 4, 7, y 8 de la letra B- la mitad Sud del numero 22 y el numero 24 de la letra D, todos de la seccion segunda y el numero 3 de la letra A, seccion tercera Territorio Nacional.

Sos lotes 3, 4, 7 y 8 forman un cuadrado perfecto de 16 leguas, situado ventajosamente a diez leguas al Oeste de Trenque-Lauquen.

Por el telegrafo hace tiempo que nos hallamos en comunicacion diaria con este punto de creciente importancia.

La diligencia de Vallee cruza estos campos en su trayecto lejano al pueblo Victorica que se halla 35 leguas mas afuera.

Faltaba solo la locomotora para trasportarnos en dos dias de la capital de la nacion a la civilizacion naciente pero vigorosa de la frontera.

Felizmente esto se ha conseguido.

Los trabajos del ferro-carril del Oeste se han dividido en tres secciones.

La primera al 9 de Julio se ha abierta ya al servicio publico.

La segunda que va a Las Mellizas ya se ha empezado, y una vez terminado esto se empezaran los trabajos de la tercera seccion que ... Trenque-Lauquen.

Dentro de dos años podemos pues, asegurar que estos campos estaran cuando mas a 48 horas de la ciudad de Buenos Aires.

Este solo hecho triplicara el valor de todas las tierras en esa direccion.

En cuanto a la calidad de la tierra de este lote de 16 leguas, nos referiremos a los informes oficiales del agrimensor Sr Maqueda quien los mensuro y amojono.

Dice el—"La calidad de estos campos es buena, siendo abundante en sus aguadas y pastos tiernos.

Hay tambien tres bosques de consideracion, de algarrobo y calden, cuya utilidad y riqueza es indisputable.

En toda la estension del campo hay 14 lagunas casi todas ellas de caracter permanente. Una de ellas de agua dulce mide 700 metros de largo por 400 metros de ancho con un buen monte a su alrededor.

Hay varios cañadones con pastos tiernos para ovejas.

Fuera de estas importantisimas aguadas dulces hay varios ojos de agua y jagüeles indios.

Los linderos son los Sres Unzue, Del Carril, Drysdale, Irigoyen y otros de igual importancia.

El lote de 10 leguas se haya igualmente bien situado.

Se compone de los numeros 3, letra A. de la seccion tercera la mitad Sud del numero 23 y el numero 24 de la letra D, seccion segunda territorio nacional.

A 4 leguas solamente del gran Establecimiento poblado del Señor Anchorena y a corta distancia de la estancia alambrada de D Saturnino Unzue, y sobre el camino precisamente que pasa de Guamini, Carhué a General Acha, se halla en contacto diario con los establecimientos mas importantes alrededor de Bahia Blanca.

Su proximidad relativa a este gran puerto y el hecho importante de estar sobre la via que pasara de Bahia Blanca a Mercedes, lo coloca en una position muy ventajosa para el poblador que prefiere una buena vecindad a la seguridad problematica de los campos mas lejanos.

Sobre la bondad de estos campos hablaran los agrimensores Maqueda y Dillon, de cuyos informes oficiales extractamos lo siguiente :—

Linea Norte—Se encuentran vestigios de haber sido una gran tolderia de indios, campo ondulado, alto y descubierto, hay un buen monte de Chañares y Caldenes.

Linea Oeste—Campo accidentado abundando la gramilla en los montes.

Linea Este—Montes de caldenes, terreno poco accidentado con lagunas.

Linea Sud—Hay montes, cañadas de agua dulce, y muchos caminos indios.

Abundan los pastos puna dulce, trevol, gramilla colorada cerca del angulo S O hay vestigios de Tolderias de indios donde convergen los distintos caminos cruzados por las lineas.

Hay gran cantidad de jagüeles de agua dulce. Este punto es conocido por el nombre de "Ranquilco."

Por folletos y planos de estos campos, ocurrir a nuestra casa, Alsina 78.

Creemos enteramente escusado llamar la atencion de los que se dedican a negocios de campo, sobre la calidad de la tierra y de los pastos, una y otro son de primer orden y pueden destinarse tanto a la ganaderia como a la agricultura, sin temor de ninguna clase; ademas de esas ventajos tiene otra muy importante y es la proximidad a la capital, de la cual solo distan estos campos un poco mas de 14 leguas, y 5 leguas de la estacion 'Jepener, Ferro Carril del Sud.

Una vez terminados los ramales que van a la Plata y Puerto de la Ensenada las facilidades para el embarque de todos los productos de este partido contribuiran un poco a aumentar el valor de esos campos.

Las personas que deseen inspeccionar el campo pueden dirijirse a Jeppener donde sale un coche correo los Martes y Sabados, y que los deja en la Estancia Los Sajones y con previo aviso habra alli un carruage especial.

Las condiciones de venta son sin base y al mejor precio.

Los lotes seran mensurados y amojonados una vez esconturados.

Estos campos son conocidos por el nombre de Fu-lo o Las 3 Lagunas, y estan rodeados de grandes estancias, propiedad de los Señores Drabble hnos, Duggan hnos, Media Luna, Juan Brown, Ricketts y Compania Pastoril Argentina y muchos otros; distan pocas leguas de Lavalle y 18 leguas mas o menos del pueblo Lincoln.

El Ferro Carril Trasandino queda muy inmediato y el Ferro Carril de las Mellizas a Trenque-Lauquen, que estara terminado en breve tiempo, pasara muy cerca tambien.

El campo realmente es flor, teniendo abundantes pastos tiernos, cebadilla, alberjilla, cola de zorro y otros gramineos como para ovejas, tiene mas de 40 centimetros de tierra vegetal y abundantes aguadas permanentes.

El Viernes 25 de Enero 1884
A las 2 en punto

Remataremos a la mas alta postura y condiciones que se estipularan mas abajo.

46243 hectareas 7 areas y 67 centiareas igual a seis leguas, mas 4,972/10,000 de otra, situadas en el mapa del Departamento de Ingenieros de la Nacion con los numeros 23 y mitad de 18 bajo el nombre de Laura Bunge de Pacheco.

Linda al campo con establecimientos de gran importancia como los de los Sres. Emilio V. Bunge, Zomborain Hnos, Salas, Cernadas, Carlos S Guerrero, Chas e hijos, Rosa Demaria, del Valle, (Italo) Drabble Hnos., y varios otros. Como se ve este campo esta situado en medio de Establecimientos muy importantes ya formados y otros en formacion.

La galera que va a Gainza y de alli a lo del Sr Bungo o Italo pasa muy cerca de este campo y los interesados pueden inspeccionarlo con toda comodidad.

Otra ventaja importantisima es la proximidad de la gran linea ferrea Trasandina que pasa a muy corta distancia de alli y que tendra a no dudarlo una Estacion ya sea en Gainza que solo dista dos y media leguas de este campo, o otro punto mas proximo de la gran Colonia Irlandesa, es sabido que se estiende de aquel lado, pues las recientes ventas hechas por los Sres. Selez y Cernadas, son en su mayor parte o Estancieros de esa nacionalidad, que como se sabe llevan consigo el bienestar adelanto y aumento en la fortuna.

Las tierras que se ofrecen en venta, se encuentran ubicadas en la Provincia de Santiago del Estero sobre el deslinde con la de Santa Fe.

Su situacion es inmejorable y dificilmente podria ofrecerse a la venta una estension de tierra que reuna las condiciones de las que van a rematarse. Estan situadas al norte de la Provincia de Santa Fe y a ocho o diez leguas de las florecientes colonias de esta Provincia y a muy poca distancia de los importantes establecimientos de los Srs. Ramayon y Escalada, Lezama y otros.

Dentro de muy breve tiempo las colonias invadiran estos campos que por su feracidad y situacion se prestan cual ningunos otros a la agricultura.

La calidad de estas tierras es excelente. Estan cubiertas de una capa de tierra vegetal de sesenta a ochenta centimetros y en algunas partes el espesor de estas capas pasa de un metro. Las aguas subterraneas se encuentran a cuatro, cinco y seis metros de profundidad, y en todos los jagueles que se han hecho hasta ahora en esta region, se ha encontrado agua dulce. Abundan ademas las aguas superficiales en pequeños arroyos y lagunas.

Estos campos son parte de los comprados ahora muchos años por D. Adolfo E. Carranza al Gobierno de Santiago del Estero y cuya mensura y plano fueron levantados en los años 1859 y 1860 por el ex-Ingeniero Nacional D. Juan Hildebrano.

En el año de 1873, a solicitud de sus propietarios entonces el Dr. D. B. de Irigoyen, D. Alejo Arocena, D. Anacarsis Lanus, D. Ambrosio Lezica y Don Adolfo E. Carranza, fueron prolijamente mensurados y amojonados en suertes de cuatro y seis leguas por el Agrimensor Publico D. Valentin Virasoro, mensura y division que fue ordenada y aprobada por el Gobierno de Santiago del Estero.

El espediente original se encuentra archivado en el Ministerio de Gobierno de la Provincia de Santiago, pero un testimonio publico de este espediente con todas sus ocupaciones, esta depositado en esta ciudad en la Oficina de Registro del Escribano D. Ramon F. Lagos, (Pasage Roverano, escritorio num. 34 altos) donde los interesados pueden inspeccionarlo.

Las ciento sesenta y siete y media leguas que se ofrecen en venta, estan divididas en treinta y una suertes de cuatro leguas, cinco de seis leguas, dos de cuatro leguas y una fraccion, una de tres leguas y media y otra de una legua y media.

Todas estas suertes estan perfectamente amojonadas, teniendo cada mojon gravados los numeros de las suertes a que corresponde. El agrimensor señor Virasoro ha adjuntado en su diligencia de mensur los datos principales de la naturaleza de cada una de estas suertes y a pedido de uno de los interesados dio un informe especial sobre las tierras que van venderse que en su mensura estan señaladas y divididas en tres lotes con los numeros 1, 2 y 4 de la seccion del Este.

No publicamos aqui esos informes por su estension, pero los interesados los encontraran en el folleto que hemos publicado y puede obtenerse en nuestra casa Alsina 78.

Esos informes son muy minuciosos y dan una idea exacta de la calidad de estos campos y ellos fueron pasados a los Sres Bates, Stokes y Ca. por cuenta de quienes el agrimensor Sr Virasoro practico la mensura.

Desde la cindad de Santa Fe a estos campos hay solo treinta y dos leguas. Desde el lote 100 al pueblo de Reconquista, centro de colonias y establecimientos importantes hay veinte y tres leguas.

Ademas del informe del agrimensor Sr Virasoro y del que hemos transcrito los parrafos que se refieren a la estension de tierras que ofrecemos en venta, pueden los interesados consultar el espediente de mensura que se encuentra en poder del escribano Sr Lagos, donde encontraran datos sobre cada una de las suertes.

La riqueza de estas tierras por su feracidad sus ricas aguadas y sus montes esta fuera de toda ponderacion.

Podemos asegurar que antes de dos o tres años estara colonizada la mayor parte de esta zona, pues las colonias de Santa Fe, como puede verse en el mapa adjunto, avanza mas rapidamente hacia ese lado, que es donde estan las tierras mas ricas para la agricultura.

Contribuira poderosamente para el desarrollo de esas colonias la proximidad del puerto de Reconquista, sobre el Rio Parana, como tambien el Ferro Carril que se propone construir la empresa de los Sres. Murrieta y Ca.

Es publico y notorio que estos señores acaban de enviar a Santa Fe al Señor Don F. E. Harman, distinguido agronomo ingles, con el objeto de estudiar esas tierras que van inmediatamente a ser colonizadas en gran escala.

Estan depositados en el Banco de Londres y Rio de la Plata los fondos necesarios, no solo para los gastos preliminares, sino aquellos que se requieren para la instalacion de varios grandes establecimientos de campo.

En vista de estos antecedentes, es indudable, que antes de muy poco tiempo, esas tierras valdran de 20 a 30 mil pesos fuertes la legua, precio que hoy se obtiene facilmente en las ventas de las tierras proximas a estas para colonias.

Por planos y folletos ocurrir a nuestra casa Alsina 78.

OF
GENUINE WINES.
—0—

In view of the falsifications done in this market by some parties labelling their bottles with my Trade-Mark, and selling their wines as my article, I am compelled to take measures to guarantee my customers the authenticity of the brand. Henceforward each stopper will bear two fire-marks (H. Audiffret, à Dijon, and A. Modet, Buenos Aires). As for the labels, they will be the same as formerly. I have received full legal power from Dijon to follow up to the very letter of the law all who have tampered with the labels.

CHATEAU LAROSE ET MARGAUX—I beg to advise consumers of those brands, not to consider genuine any except bearing on the stopper and capsules the name of th brand. These wines are not labelled.

CHATEAU LAFITTE—This brand, of which I am the sole agent in Buenos Aires, bears the name of Goudal & Co., as manager, and mine as agent.

All the other brands I introduce may be considered genuine, on condition that they bear a passport or label of my name—viz: Château Yquem Marquis, Château Contet, Château Barsac. Cos d'Estournel, Château Lagrauge, Château Brane Mouton, St. Emilion Labarde et St. Emilion.

Representative of the House of H. Audiffret (Dijon).

Passengers from Montevideo were let out of quarantine to-day. They report much activity in the Mount and an easier wool market than on this side of the river; prices are considered more reasonable by exporters.
